### mmunity That Desires Service May Secure Representatives

### REVIEW OF WORK HERE

**Alexandria, It Is Pointed Out, Should Strive to Maintain The Highest Possible Degree of Community Service.**

With the passing of war camps, War Camp Community Service will cease to be a factor, yet there is a feeling that as an outcome of the success attained throughout this country by this nation-wide organization during the period of the war, Community Service should follow as a healthy offspring. As to War Camp Community Service it is doubtful if those connected with that organization overlooked any item of service dealing with the comfort, amusement, uplifting influences and morale of the enlisted man when he happened to be in a community where the organization was located, and there were nearly seven hundred cities and towns in the United States where War Camp Community was established and maintained for these noble purposes.

Is there any reason then why this same work should not be continued as Community Service, and assist any and every community to handle any problems presenting themselves? This organization will have established headquarters in New York City and any community making a request for the service will receive hearty and prompt co-operation. For instance, as it will be necessary for each community to raise its own fund or budget to carry on the work, headquarters will send a trained man to co-operate with a local committee in the proper method of securing the required amount. Also in the matter of the local equipment belonging now to the War Camp Community Service this will be loaned for a period or at least until the new organization can make arrangements either to purchase from W. C. C. S., such equipment as may be needed or whatever new outfit may be deemed advisable.

Headquarters will also lend a trained and experienced representative to any community installing the service for the purpose of establishing policies, the necessary committees and a good, practical launching of the work.

Community Service means everything that will be an advancement, uplift, or benefit to that community. It will embody features along the lines of industry—assist as a bureau in getting positions and work for those in establishing and operating playgrounds for the city's children and formulate plans for the recreational features for the leisure time of the grown ups, give every assistance through competent representatives, to civic organizations in the carrying out of their plans for community betterment in every respect and the local office will have the benefit of bulletins from headquarters received almost daily setting forth the progressive happenings in many other communities and in this way, a friendly competition will be established and the different communities vie with each other as to which can furnish the most advanced report.

In Alexandria, for the white children, the playground of the Lee school for the last few months has been the scene of many activities per day and evening under the trained leadership of representatives of the War Camp Community Service and many hikes, picnics, parties and the like have been thoroughly enjoyed by many of our city's children.

Among the colored people of Alexandria under the trained leadership of several representatives supplied by this organization and with a spacious recreation field north of town, equipped by the same organization, a program of activities of wide and progressive proportions has been carried on for more than a year, mostly in favor of the emergency men in war service. Two buildings are equipped for the use of the men and recently a separate building has been installed for the work among girls, all under trained supervision, where all forms of educational suggestions are carried out, many little clubs and societies formed and recreational features indulged in. There is no reason why this work should not be continued as an important feature of the life and progression of Alexandria as there is no end to the features that will naturally present themselves to those who will be deeply interested and have the Service in charge, and inasmuch as the father of the enterprise, headquarters at New York, is subject to call for experienced assistance at any time, Alexandria should be one of the many cities to apply for and strive to maintain with the highest posible degree of efficiency, Alexandria Community Service.

### IN MEMORIAM

In sad but loving remembrance of my dear son and uncle, James S. Jeffries, who died three months ago today, June 18, 1919.

As the evening sun is setting
And I often sit alone,
In my heart there comes a feeling
If our James could only come home.
I dream of your face that I loved,
Your eyes I am longing to see,
I will never forget you James
You were all in the world to me.
His loving Mother.
At the depth of our sorrow no one can tell,
At the loss of my dear uncle I loved so well,
But while he rest in peaceful sleep.
His memory I will always keep.

## FIRST DIVISION GIVEN A TRIUMPH

### 400,000 Wildly Acclaim Pershing And His Fighters

### ARE IN BATTLE ARRAY

**Commander of American Host Unbends Before Cheering Throngs in Washington.**

The national capital witnessed the tary spectacle in half a century, when the First Division of the American Army, led in person by Gen. John J. Pershing, marched down Pennsylvania avenue wildly acclaimed by fully 400,000 of their fellow-countrymen.

Arrayed as though they were driving once more against the enemy these veterans of Cantigny, Soissons, St. Mihiel, the Argonne and Sedan tramped gallantly to the music of nearly a score of bands and under the bronze of two years bitter campaigning, they flushed with pride as ment and multitudes of joyous shouters greeted them with a tumult of aplause from end to end of the long line.

For more than two hours the fighting men passed in review before Vice-President Marshall, General Pershing, Secretary of War Baker, General March, chief of staff, and hundreds of members of the House, Senate and the executive departments of the government. Not since Grant, Sherman and Sheridan, filed solemnly down the avenue in 1865, has Washington looked upon so mighty a military demonstration.

All the whole community with thousands upon thousands of Marylanders, and Virginians including a large percentage of the population of Alexandria poured forth to do the heroes of the latest war honor and to make them feel that a grateful nation recognizes the sacrifices, the courage and the success of the splendid army which General Pershing commanded upon the fields of France and Flanders.

By act of Congress, a legal holiday was declared in the District and every activity of the Government and most of the activities of the people of the city were suspended for the entire day. Congress, itself, closed its doors.

## RATIFICATION IS A CERTAINITY

### President Wilson Declares It Cannot Be Prevented

### HAS "ACE IN THE HOLE"

**His Attitude of a Nature to Carry Authority With it—Outcome Now in Sight.**

San Francisco, Sept. 18.—Ratification of the treaty of Versailles cannot be prevented.

President Wilson so declared here today. His statement was the culmination of a series of addresses in this city beginning with his statements to the "women of San Francisco" yesterday afternoon and continued through last night's spicy meeting. He wound up his addresses here in the home of Senator Hiram Johnson, at a public luncheon by repeating his declaration that there could be no doubt of the final outcome.

The President since his arrival on the coast has talked like a man with an "ace in the hole. His attitude has contained a swagger that has been designed to carry authority with. Today members of his personal party declared that the outcome was in sight. They insisted that Senator Hiram Johnson, who has been on his track for more than a week, will not come to the Pacific coast. They declared that the Senator will return to Washington to lead the fight there to prevent ratification of the treaty. And they insisted today that the ratification is an absolute certainty.

## ELECTION TUESDAY ON COUNCIL MANAGER

### Interest In Outcome As Time For Election Approaches

### BIG VOTE EXPECTED

**Proposition Has Been Under Consideration For Some Time Past—Election Will be Conducted under Usual Plan**

The voters of this city will on next Tuesday be called on to vote in a special election for the purpose of deciding whether or not Alexandria will adopt the council manager plan or continue the present form of government.

The matter has aroused considerable interest. Already the proposition is the principal topic of conversation on the streets and there is every indication that the interest is becoming more pronounced as the time for election approaches.

Both sides have warm champions for their respective causes and there is every indication that a good sized vote will be polled next Tuesday.

The movement for an election to have a change in the form of city government was inaugurated several months ago by a citizens' committee.

The election was ordered by the judge of the circuit court following the presentation of a petioned signed by a certain number of qualified voters of the city.

The special election will be conducted as other elections and the voting will be done at the old voting places. The usual number of election officials will be on hand that day in the four different wards of the city.

### COMMUNITY SING TONIGHT

**Other Sings May be Held This Season—If Weather Proves Propitious**

A community sing will be given tonight at 8 o'clock in Christ Church yard. A band concert will be given by the Old Dominion Band and a song leader from Washington will lead the singing.

A collection will be lifted and half the funds derived will be applied toward purchasing uniforms for members of the band and, the other half will go toward the Boys' Club.

Many citizens interested in community singing are anxious that further sings be held this season providing good weather continues to prevail in which event it is regarded as more than likely some e future sings will be given.

Those promoting the community sings declare that they have been definied as the regular periodic meeting of the people of a community, all being freely invited without voice trials or any consideration of previous musical training to the end of applying the unifying of song to the upbuilding of a community.

It is further stated that these sings are the demoncratizing of music.

It is also pointed out that these sings are result in an awakening of the American people to a realization of the mightly power of music as an educational, moral and cultured attest.

## AN IMPOSING PAGEANT

While approximately half a million people were on the streets of Washington yesterday viewing the parade of the First Division of the American Expeditionary Force with General Pershing at their head, there was a large turnout in Baltimore, the occasion being the parade of Odd Fellows from every section of the globe. Alexandria was represented in the pageant, delegates from Potomac and Sarepta Lodges of this city being in line.

It was perhaps the greatest fraternal pageant which ever passed through the streets of Baltimore. It was the Centennial parade of the Independent Order of Odd Fellows, which marched 40 blocks through the city, with 22,000 Odd Fellows in line from every State in the Union, every province of Canada and from Australia, New Zealand and other parts of the world. It took more than two hours to pass the reviewing stand and went without a hitch.

Fully 12,000 of this army were in uniform and full regalia of office. There were 15 historical and picturesque floats depicting the inspiration, origin and dramatic episodes of Odd Fellowship. High lights of this moving of the order also were furnished by the officers of the Sovereign Grand Lodge in their colorful uniforms, ornamented with sashes and gold braid and diamond and enamel decorations, and with jeweled swords on their hips. The Patriarch Militant, with their purple plumed or crimson plumbed cocked hats and glittering sashes and swords, presented a brave appearance.

Another feature which drew prolonged applause all along the crowded route of the parade was the Naomi Lodge of Rebekahs, the only large group of women of the 1,000 in line of march who were on foot. They were dressed in attractive costumes, carried many banners and were led by one of the jazziest bands heard throughout the day. There were 41 brass bands and one orchestra (which was silent) in line and were a very important part of the parade.

## TASTE OF BOSHEVISM

Organized labor is disgusted with the revels of crime that these deserters in Washington and Boston brought on by seeking its support by desiring to appeal to an exterior jurisdiction and disobeying their lawful master, the representative of the public. Let them come back says organized labor, not too enthusiastically.

The New York Times says they cannot return unpunished, and be paid again by the community they have betrayed and deserted. There can be no compromise with public servants who refused to serve, and who brought Boston to the edge of anarchy. What confidence could the law-abiding people of Boston have in soldiers of the law who mutinied against it and gave the city up to lawlessness?

"Governor Coolidge, Mayor Peters and Commissioner Curtis have had a stern public duty to perform. They will continue to perform it well. It has been given to them to assert an indispensable right, the right of the community, the city, the State, the uninterrupted protection by the sworn officers of the law, obedient to their lawful superiors. Neither organized labor, nor organized or unorganized lawlessness, nor the private wishes or grievances of public servants weigh a feather against the steady reign of law. Boston in giving Bolshevism a salutary lesson and everywhere men and women good will applaud and thank her."

## UNREPENTANT BOCHE

Whatever the docility, the conciliatory attitude of our forced hosts, the Boches, we have yet to hear that one of them has expressed repentance for the horrors they loosed upon the world says Harper's Magazine. "If they are sorry, it is not in the sense we commonly give to that word. The war they seem to have taken as the natural, the unavoidable thing, just a part of life, as the gambler takes gambling, with no other regret than that it is his bad luck to lose. Like the gambler, they may be sorry they made certain moves in the game; they may be sorry they entered the game at all, as the gambler would be who knew in the end that his adversary had more money on his hip than he had given him credit for in the beginning. But it is not a regret of being a gambler. Did not Nietzche say that to regret, to repent, is a sign of weakness:? Unless there is something under his mask that never shows a hint of its existence on the surface, the German is still a firm disciple of Nietzchean philosophy.

"In one sense he is a "good loser" in that he begins without waste of time or vain regrets to hedge, to make up for his folly—or his bad luck—to bend all his efforts toward quick recuperation. But in the other sense, that in which the term is used in clean sport, he is a decidedly bad loser."

Malone, N. Y., Sept. 18,—This little town, already distinguished in having given to the United States a Vice President, has added to its laurels by producing the youngest bride thus far recorded in this State, Miss Lillie May Lattimore was just 13, according to the record, when she gave her heart and hand, with the consent of her parents, to R. G. Argielopis, 36 years old.

The ceremony, according to the Evening Telegram of this village, was performed in the home of the bride's parents by the Rev. T. Wilson Carling, a Methodist minister of North Bangor, a neighboring village. About 50 relatives and friends witnessed the ceremony. The bridegroom's best man and the bridesmaid were each 15 years old. They left on an automobile trip to the city of Ogdensburg, 60 miles away, as their wedding journey.

## STRIKE BEING PLANNED

**Leaders Decline to Talk Though Attitude is Unchanged**

Pittsburgh, Sept. 18.—The national committee of the American Federation of Labor that has been designated as the strike committee in the iron and steel industry held an all day meeting at the Monongahela House yesterday, and when they adjourned last night, refused to give out anything officially, stating that a general statement of the union's side of the controversy with the United States Steel Corporation would be made today.

Chairman Fitzpatrick said the meeting was not called to discuss the advisability of postponing action on the strike, but to discuss ways and means of pushing it through to a successful conclusion. When asked as to the attitude of the presidents of the twenty-four unions composing the national committee, he said:

"They are in the same mind as before. They do not change with every wind that blows, and are determined to get the rights of their men established in the different workshops of the land."

Denial was made that Samuel Gompers had been sent for.

To Our Patrons

Alexandria, Va., June 2, 1919.

In line with our progressive banking methods, and to meet the demands of our patrons, we are installing on July 1st, an up-to-date Safe Deposit Department, under the personal supervision of one of our officers.

This has been made necessary from the fact that a large number of our depositors owning Liberty Bonds and other securities desire a safe place for their keeping.

It is our plan to enlarge the number of Safe Deposit Boxes, and make a rental charge to meet the operating expenses of this Department. This charge will become effective July 1st, 1919, and a bill will be sent out at that time to the holders of boxes, and if any desire to make any change we will be glad to have them call before the bills are rendered for the ensuing year.

The Council Manager Plan

The Council Manager Plan is a form of city government inaugurated in the State of Virginia and adopted by Norfolk, Suffolk, Petersburg, Roanoke, Bristol and Fredericksburg, because it has been demonstrated that it better enables cities to intelligently, efficiently and economically conduct the business.

A council of five is provided which acts as a Board of Directors to conduct business, just as a Board of Directors assumes the responsibility for private business. The council will elect a city manager, whose position is relative to that of manager of a successful business. He is given authority and is held responsible for results.

THE COUNCIL TO HAVE FIVE MEMBERS. The five men to serve as a council under the proposed plan will be elected by the people at large. There is no chance of factional control, because of the number of candidates of five receiving the highest number of votes will be declared elected. There is not any ward division because this body represents the whole people.

THE CITY MANAGER. The city manager is to be the chief executive officer of the city; his merit and qualifications are to be decided by the council and he is subject to removal by them if he does not prove efficient. He is to prepare an annual budget, subject to the approval of the council. He will plan and direct all city work and improvements; will have supervision over all city employees. He is responsible to the council of five for his acts and those of his subordinates.

CITY FINANCES. The council manager plan will stabilize the handling of the city's finances, looking first—as you do in your business—to the actual and possible development of finances, and, second, to a budget plan of disbursement. Cities are not built for the present, but for the future, and in expending the revenues of a city careful attention should and must be paid to future growth. The provision of the Sinking Fund to properly care for the city's debt is provided for in State Law.

THE TEST OF THE COUNCIL MANAGER PLAN. The present city government is inefficient, not because of the men, but the plan. It is old, faulty and unsuited to meet present needs. While it is inconceivable that the proposed plan should make its first failure in this City, should it fail there is nothing in the State Law to forbid a return to the present form. The economists and efficiency men are paid large sums of money to furnish a better plan of organization and government for private and public business enterprises, and acting upon the results of investigation the citizens petitioning the court has offered the council manager plan to you, Mr. Voter, as an opportunity to say whether you want the old conditions to remain, or whether you want your city to measure up to its full responsibilities brought upon it by new enterprises and increased population.

THE CITIZENS COMMITTEE.

## PRINTERS WOULD ARBITRATE

**Willing to Discuss Pay, But Demand Shorter Hours**

New York, Sept. 18.—Officials of "Big Six" the local union of printers, whose demands for an increase of $14 a week in all present wage scales in book and job offices and the establishment by October 1 to a 44-hour week, were met by a threat on the part of 152 New York periodical publishers to suspend publication or to move their plants to Western cities, where they will be free of labor ..radicalism," announced today their willingness to arbitrate the question o higher pay. They declared they were determined, however, to insist on their dem.'d for shorter hours, refusal o whi would mean a strike.

A evidence of their determination to press their demands, strikers pointed out that a 10 per cent. assessment amounting to $40,000 a week, was b ing collected from the men for a strik fund.

John Adams Thayer, secretary of the New York Publishers' Association, in a statement announcing the employers' attitude, said that "two publishers of publications of nationa circulation" were preparing to sel out their real estate in New Yor and were arranging to purchase lan and buildings in other cities. Orders for new printing and binding machinery for these New York plants he said, had been canceled in expectation of removal.

Publishers of another periodical c a weekly pay roll of more than $17, more than 1,000,000 circulation, with 000, according to Mr. Thayer, and whose leases are about to expire, have decided not to renew them and are negotiating with outside real estate firms for a location in the West.

## FINDS WIFE WEDDED

**Former Soldier, Reported Dead, Gets Divorce at Danville**

Danville, Va., Sept. 18—A divorce was granted here by Judge E. Walton Brown to William Childress, whose 17 year old wife, seeing the name of her husband among the slain in an official casualty list, married Robert Holley, of North Carolina, also a soldier,

It subsequently developed that her first husband was not killed. No steps have been taken to prosecute the young woman for bigamy under the circumstances.

Examination of depositions taken in the case show that there was a voluntary separation six days after the girl's marriage to Childress. She left to visit relatives in North Carolina, but once there she wrote to him saying she did not expect to return. When war was declared by the United States, Childress enlisted with the local Coast Artillery organization and went to France. He was in the army for two years. While abroad his name was included in the casualty list, although he was not wounded or missing, and Mrs. Childress was married in Spray, N. C., to Holley. Holley in his deposition says that his bride never told him of her first alliance, and the divorce action brought him first word of it.

## TALKS TO BOAT UNDER SEA

**Is First Direct Communication Established**

New London, Conn., Sept. 18.—A radio experiment made off New London, in Long Island Sound, by the Experiment Station, Naval Section established communication, both telephonic and telegraphic between a hydroplane flying nearly 2,000 feet in the air and a submerged submarine several fathoms in the water.

This was a demonstration for the of the Edison Society of Electr engineers being held at Eastern Point.

This is said to be the first time that an aeroplane and a subme submarine have communicated with each other directly, and is considered by naval officials here as an portant factor in coast defense and naval warfare.

## LABOR PARLEY

This means that sixty-six men will take part in the momentous meeting which is to decide the "new order" that the President hopes to attain between capital and labor Organized labor will have twenty-two representatives, as will organized employers. The conference will be held in the East Room in the White House, and will be presided over by the President.

## TO RAISE GRAIN PRICES

**Middle West Farms Advised To Hold Stock on Farm to Bring Upturn.**

Indianapolis, Sept. 18.—A movement intended to cause farmers throughout the Middle West to hold their grain on the farm so as to bring about a substantial upturn in the market was started here by the Illinois Argicultural Association, according to a telegram received by the Indiana Federation of Farmers' Associations. The telegram, sent by D. O. Thompson, secretary of the Illinois organization, from Chicago follows:

"I am sending this wire to all farm bureaus. The manipulation of the grain market by the Board of Trade and the agitation of the Government against the high cost of living, has temporarily upset the market. Suggest your notifying your entire membership not to be stampeded, but to hold grain awaiting sane market. In so far as possible this should apply to live stock as well."

Officers of the Indiana federation, who last week advised members to hold their hogs because of the slump in prices, said they would comply with the request and co-operate with other organizations in any other movement intended to aid farmers generally.

## NO YIELDING TO POLICE

**Boston Commissioners Reiterates That Strikers Are Barred**

Boston, Sept. 18.—Striking police men will not be reinstated under any conditions. This was reiterated yesterday by Police Commissioner Edwin U. Curtis when his attention was directed to the construction placed in some quarters on an amendment to the department rules announced last night. It had been pointed out that the change, which would permit suspension as a penalty for violation of regulations, might be construed as leaving a loophole by which some of the older men of the department who before the strike had served the city long and faithfully might regain their positions.

The list of strikers who have applied for reinstatement is constantly growing, according to Superintendent of Police Michael H. Crowley. No difficulty is expected in providing policemen for the polling places at the primaries next Tuesday.

Although nine-tenths of the unions affiliated with the Boston Central Labor Union have voted to support the police "to the limit" in their strike for union recognition, according to a statement made at a meeting of the police uKnion last night by Frank H. McCarthy, local organizer of the American Federation of Labor, union leaders asserted yesterday that they did not indicate any immediate general strike.

The announcement that the firemen of the city would not even consider a sympathetic strike to support the police removed a factor that had given the authorities much concern.

The Boston Web Pressmen's Union, whose members are employed on local newspapers, ballotted yesterday on the question of participating in a geenral strike, orders for the vote having been issued at a meeting last night attended by 300 members. The News Writers' Union also met yesterday, but no announcement was made as to the business to be taken up. A strike vote also was taken today by the Typographical Union.

The ninth day of the strike opened with no indication of unusual conditions except the presence of armed troops.

## RAID SOCIALISTS HOUSE

**Men in United States Uniforms Smash N. Y. Headquarters of Radicals.**

New York, Sept. 18.—The Socialist headquarters in the Seventeenth Assembly district here was wrecked Tuesday night by several men in United States service uniforms, the police were informed yesterday.

The intruders destroyed documents and pamphlets, tore papers from the walls and broke up furniture after entering the building by smashing a skylight.

## FLOOD VICTIMS SUFFER

**Chilling Rain Adds To Hardships in Reign of Disaster**

Corpus Christi, Texas, Sept. 18.—Chilling, intermittent rainfall yesterday added to the sufferings of thousands of refugees in devastated Texas coast counties, swept by a hurricane and tidal wave Sunday.

Corpus Christi presented a scene of dreary confused activity. Patrols of soldiers sloshed to and fro through the rain and mud. Workmen, who had labored through the night, kept doggedly at their task of clearing away the ruins.

Now and then a little procession bearing a blackened and bruised body would make its way to the temporary morgue in the courthouse Groups of women, many with crying children tugging at their skirts, wandered aimlessly about the morgues, trying in vain to identify the bodies of loved ones.

Along the Gulf coast airplanes whirred through the mist and rain, skimming low along the drift-strewn sandy beaches in search of bodies. Bloated carcasses of cattle, sheep and hogs were scattered along the shores or lodged in trees and brush.

Complete figures on the toll of the gulf wave and hurricane were still lacking.

United Press reports from the stricken counties, however, indicated the dead probably would not reach more than 200.

## MILK MAN SHEDS TEARS

**"I'm Losing Money," he Said, and Persecuted by Press and People.**

New York, Sept. 18.—Asserting that although his company was losing money at the price at which it was selling milk, he had been made "the victim of pernicious newspapers" and had received many letters threatening his life, Loton Horton, president of the Sheffield arms Company broke down while testifying yesterday at the first hearing held by the fair price committee investigating the high cost of fluid milk.

Bursting into tears and pressing a handkerchief to his eyes, Mr. Horton said, sobbingly:

"I have been the victim of pernicious newspaper, and Socialistic and Bolshevist issues. I have received many letters threatening my life. The cause of the high price of milk is the sentiment of the people, which is more money and less work."

The dramatic climax to the hearing came after Health Commissioner Copeland, a member of the committee, had inquired if "the Health Department's restrictions upon pasteurization of milk had increased the infant mortality rate here"—presumably through additional expense reflected in the price to the consumer, the witness sobbed out an answer in the negative.

"You milk men are great philanthropists," commented Health Commissioner Copeland, while Horton was testifying. "I was in one of your factories recently and observed that you were making milk sugar. I suppose that was because you had a surplus of milk."

Horton said the purpose was to prevent the waste of surplus milk, which formerly was fed to pigs or used for fertilizer. Milk sugar is selling at 30 cents a pound, he said.

Before leaving the stand, Horton said that drivers employed by his company earn about $40 a week, and beginning October 1, when they will demand additional pay, their earnings including commissions will net them $55 per week.

The commitee listened to the testimony of several other large distributors, who were unanimous in asserting they were losing money.

## HOMEMADE WINE IN DRY BILL.

**But it Must be Kind That is 'Nonintoxicating," Lawmakers Say**

The principal Senate amendment liberalizing the prohibition enforcement act, to permit home manufacture for individual consumption of "non-intoxicating" cider and light wines, was accepted yesterday by the House conferees and placed finally in the bill subject to action on the conference report.

Other disputes between the Senate and House conferees went over temporarily, probably until late this wek when a complete agreement is expected. Enactment of the bill probably will be delayed until next week.

The principal controversy yet to be settled is over the "burden of proof" in the case of persons found intoxicated. The House conferees, it is said, are insisting that the burden of proof should be upon defendants, while the Senate conferees are reported to hold the opposite view.

## LAWSON AIRPLANE BREAKS ITS NOSE

The Lawson passenger airplane, known as the "Millionaires' Special," capable of carrying 26 persons and actually carrying nine, was wrecked at Belska field, Syracuse, N. Y., on its maiden cross-country flight from Chicago to New York. In landing at Syracuse the machine swerved as it struck the ground, with the result that the nose of the plane was buried in the soft earth.

## BOSTON FIREMEN LOYAL

**Refuse to Strike to Aid the Police Who Walked Out**

Boston, Sept. 18.—The outstanding development yesterday in the situation resulting from the police strike was the declaration of the city's firemen that come what might they would remain at their posts of duty. The voting of unions affiliated with the former policemen on the question of supporting the latter continued quietly and methodically and there was grave doubt of the outcome. The officials realized the danger still confronting the city, but hailed with satisfaction the attitude of the fire fighters.

Four thousand girls, members of the Telephone Operators' Union, were voting yesterday and last night upon the question of a sympathetic strike. They make up the staff of the New England Telephone and Telegraph Company in the metropolitan district.

The Boston Typographical Union and the Web Pressmen's Union also were voting last night.

**Portsmouth Shooting, it is Said, Followed Altercation Over Debt**

Norfolk, Va., September 18.—Jack Turk, 21 years old, a grocer, was shot and almost instantly killed Monday just outside of his store at 213 Chestnut street, Portsmouth, Va., by a negro, alleged to have been Empero Jacobs, who was reported arested in Rich Square, N. C.

The shooting is said to have resulted from an effort by Turk to collect an account. When he went to the negro's home and asked for settlement, it is said an altercation followed and Turk returned to his store. The negro is said to have gone there and, in the presence of Turk's wife, dragged the grocer outside and shot him. Five shots penetrated Turk's body. The negro fled to an automobile which is believed to have been waiting and drove off. Besides his wife, Turk is survived by a 7 months old baby. He was recently discharged from the army.

Strike out from the Constitution of Virginia section thirty-two, which is in the following words:

Sec. 32. Every person qualified to vote shall be eligible to any office of the State, or of any county, city, town or other subdivision of the State, wherein he resides, except as otherwise provided in this Constitution, and except that this provision as to residence shall not apply to any office elective by the people where the law provides otherwise. A RESOLUTION proposing amendment to section 117 of article 8 of the Constitution of Virginia, and providing for publishing said amendment and certifying the same to the next general assembly.

Resolved by the senate and the house of delegates (a majority of the members elected to each house agreeing thereto), That the following amendment to the Constitution of Virginia be, and the same is hereby, proposed and referred to the general assembly to be chosen at the next general election of senators and members of the house of delegates, for its concurrence, in conformity to the provisions of section one hundred and ninety-six of article fifteen of said Constitution, namely:

Strike out from the Constitution of Virginia section one hundred and seventeen, which is in the words and figures following, to-wit:

Section 117. General laws for the organization and government of cities and towns shall be enacted by the general assembly, and no special act shall be passed in relation thereto, except in the manner provided in article four of this Constitution, and then only by a recorded vote of two-thirds of the members elected to each house; and except also in the case of cities having more than fifty thousand inhabitants, as hereinafter provided. But each of the cities and towns of the State having at the time of the adoption of this amendment a municipal charter may retain the same, except so far as it shall be repealed or amended by the general assembly; provided, that every such charter is hereby amended so as to conform to all the provisions, restrictions, limitations and powers set forth in this article, or otherwise provided in this Constitution.

Notwithstanding, however, anything in this article contained the general assembly may, by general law or by special act (passed as prescribed in article four of this Constitution), depart in any respect (except as otherwise in this section expressly provided) from the form of organization and government prescribed by this article for cities and towns, and may provide, from time to time, for the various cities and towns of the Commonwealth such form or forms of municipal government as the general assembly may deem best; but no form or forms of government authorized by the second paragraph of this section shall become operative except as to such cities or towns as may thereafter adopt the same by a majority vote of its qualified electors at an election to be held as may be prescribed therefor by law. All the limitations on the powers of the councils of cities and towns imposed by this article shall apply in like manner to the principal legislative authority under any form of government which may be authorized hereunder. The term "council" as used in sections one hundred and twenty-five and one hundred and twenty-seven of this Constitution shall be construed to include the body which, under any form of municipal government, shall be vested with the principal legislative authority of such municipality.

The general assembly, for the purpose of this article, may classify cities according to their population but the maximum population prescribed for any class shall exceed the minimum population for the same class by at least ten thousand. The general assembly, at the request made in manner which may be prescribed by law, of any city having a population of over fifty thousand inhabitants, may grant a special form of government for such city.

Any laws or charters enacted pursuant to the provisions of this section shall be subject to the provisions of this Constitution relating expressly to judges and clerks of courts, attorneys for the Commonwealth, commissioners of revenue, city treasurer and city sergeants.

And insert in lieu thereof the following:

Sec. 117. (a) General laws for the organization and government of cities and towns shall be enacted by the general assembly, and no special act shall be passed in relation thereto, except in the manner provided in article four of this Constitution, and then only by a recorded vote of two-thirds of the members elected to each house. But each of the cities and towns of the State having at the time of the adoption of this Constitution a municipal charter may retain the same, except so far as it shall be repealed or amended by the general assembly; provided, that every such charter is hereby amended to conform to all the provisions, restrictions, limitations and powers set forth in this article, or otherwise provided in this Constitution.

(b) The general assembly may, by general law or by special act, (passed in the manner provided in article four of this Constitution) provide for the organization and government of cities and towns without regard to, and unaffected by any of the provisions of this article, except those of sections one hundred and twenty-four, one hundred and twenty-five, (except so far as the provisions of section one hundred and twenty-five recognize the office of mayor and the power of veto) one hundred and twenty-six one hundred and twenty-seven and one hundred and twenty-eight of this article and except those mentioned in sub-section (d) of this section. The term "Council" as used in any of said sections shall include the body exercising legislative authority for the city or town, and all ordinances enacted and resolutions adopted by such body shall have the same force and effect for all purposes, as if enacted or adopted in accordance with the provisions of section one hundred and twenty-three of this article. But such organization and government shall apply only to such cities or towns as may thereafter adopt the same by a majority vote of those qualified voters of any such city or town voting in an election to be held for the purpose, as may be provided by law.

(c) The general assembly, at the request of any city or town made in manner provided by law, may grant to it any special form of organization and government authorized by sub-section (b) of this section, and subject to all of the provisions of that sub-section, except that it shall not be necessary for such city or town to thereafter adopt the same.

(d) Any laws or charters enacted pursuant to the provisions of this section shall be subject to the provisions of this Constitution relating expressly to judges and clerks of courts, attorneys for the Commonwealth, commissioners of revenue, city treasurers and city sergeants.

(e) Any form of organization and government authorized by any provision of this section which may have been adopted heretofore by any city or town pursuant to any act of the general assembly enacted before such provision became effective, and which is now in operation, is hereby declared legal and valid ab initio, and shall have the same force and effect as if it had been authorized by this Constitution at the time of its adoption.

Lynchburg Woman, Before Suicide, Announced Marriage.

Lynchburg, Va., Sept. 18.—A coroner's jury here yesterday inquiring into the death of a young woman here Monday in the residence of Mr. L. L. I., during the war, as she had previously announced.

The inquest also developed finally that the case was a suicide. The inquest not only caused a postponement in the burial of Miss Sandidge who was a member of a good family here, but it also resulted in the certificate being changed from that of a married woman to single.

## DEATH TOLL FROM STORM

**Reports of Heavy Casualties In Gulf Towns Pour Into Corpus Christi**

Corpus Christi, Texs. Sept. 18.—The list of known dead in Corpus Christi and environs is now nearing the 200 mark, and is being swelled almost hourly.

It is now feared that the death tolls will reach far into the hundreds, as reports reaching here from across Nueces Bay in the vicinity of Portland, White Point and Rocita and other towns in that section tell a uniform story of heavy casualties.

According to reports from that section the receding waters have left bodies strewn along the entire north shores of the bay. Burial parties are being sent out from here to scour all the lowlands along Nueces Bay and bury them in the most expeditious manner, as practically all hope of identifying any of the bodies has been abandoned.

The temporary morgue opened in the Corpus Christi Courthouse was closed yesterday and all bodies now are being carried directly to the cemeteries, where they are buried with simple rites by waiting clergymen. Pieces of clothing, jewelry and other keepsakes found on the bodies of the victims are being preserved and filed with the county recorder in the hope they may later be of use to relatives and friends as a meansn of identification.

Austin, Texas, Sept. 18.—Rockport and Port Arkansas suffered tremendous damage and need outside assistance immediately, according to delayed appeals from those cities received by Gov. W. P. Hobby. Three lives were known to have been lost at Rockport, one at Arkansas Pass and four at Port Arkansas.

## NON-MAGNETIC SHIP

**Carnegie, Built For Compass Corrections, Will Pay Visit to Every Corner of The Globe**

Baltimore, Sept. 18.—The non-magneitc ship Carnegie, one of the most unusual vessels afloat, which has been repairing at this port for more than three months, will leave tomorrow morning for a test trip to Washington, after which a 30-month cruise will be started, during which she will visit every corner of the globe. The Carnegie, which is owned by the Cargegie Institute, performs important scientific work in detecting compass deviation and variation at various points and her reports are of great value to mariners.

No steel or iron is used in the construction of the Carnegie for the preence of these metals will interfere with the accuracy of the observations made by the scientists who make reports to the Institute. When observations are being made, knives and even collar buttons made of the offensive metals are taken from the crew and placed in a non-conducting insulated bo in order that her delicate instruments may not be affected by other than the polar magnetic influences.

## COFFEE FUTURES DROP

**Prices in New York 10 Cents Lower Than on June 30**

New York, Sept. 18.—A sensational decline in the market for coffee futures here yesterday followed sharp declines in Brazil. The price for December deliveries was quoted at 13.70 cents a pound, making a decline of 165 points from the closing quotations of yesterday and a new low level for the present season.

The price of coffee on the exchange here has declined more than 10 cents a pound since the end of last June, as buyers for consumption have been holding off and Brazilian holders have shown more disposition to sell under the pressure of new crop receipts.

## WILL HOLD PLEBISCITE

**Luxemburg to Determine Whether Duchy Shall Join France or Belgium Economically**

A plebescite is to be held in the Grand Duchy of Luxemburg after the ratification of the treaty of peace to determine whether the form of government shall be changed and also to determine whether the Duchy shall join France or Belgium economically.

At present the Grand Duchy is governed by a council of 15 members and a Chamber of Deputies of 52.

There are two political parties—the Liberals and Conservatives—who are divided along the usual lines of how far the church influence should extend to policial affairs and also a line of cleavage is now growing up as to whether the Grand Duchy shall turn toward France or Belgium. The Grand Duchy is really ruled by the president of the council, who is named by the Grand Duchess on advice of the majority of the Chamber of Deputies, following the usual parliamentary system.

## JANITORS AND PROFESSORS

**Eastern New York Endowment Fund Offical Contrasts Their Wages In Harvard Campaign**

New York, Sept. 18.—College professors are worse paid than janitors and scrubwomen in the same institutions, charges Gardner R. Perry, of Albany, a Harvard graduate, who is chairman of the Eastern New York endowment committee to raise funds for Harvard University. The university wants $11,000,000.

"So long as the janitors of our college halls and the scrubwomen of the libraries get larger salaries than professors, just so long shall we be in danger of seeing our universities become second-rate schools of advanced education," he said.

"The remedy for this condition is not lowering the pay of the janitor and scrubwomen, but raising the salaries of our teachers."

## ALBERT LONG DEAD

**Confederate Veteran Was Thought Oldest Man in Virginia**

Harrisonburg, Va., Sept. 18.—Albert Long, 101 years old, Confederate veteran who served in the Tenth Virginia infantry under Col. S. B. Gibbons, and believed to be the oldest man in the State of Virginia, died yesterday at the home of his daughtr, Mrs. Nancy Ruebush, near Singer's Glenn, from the effects of a cancer growth. Long was the sole survivor of a family of sixteen, and is survived by a daughter, aged 75.

Long had voted, it was said, for every Democratic nominee since Van Buren in 1840.

## FIREMAN DIES IN BLAST

Nashville, Tenn., Sept. 18.—With a roar that shook windows in Greenbrier, a mile and a half away, the boiler of an engine on a westbound Louisville & Nashville freight train at Hygiea Station, twenty miles from Nashville, exploded, killing the fireman, R. J. Jones, of Slaughters, Ky., and badly burning the engineer, W. T. Cook, of Nashville, yesterday morning. The station house was razed, Jones was blown from the cab and was buried under the debris of the building.

## AUSTRIA'S FOOD FAMINE

**Decree Expelling All Persons Who Do Not Claim Legal Residence**

Vienna, Sept. 18.—In an effort to cope with food and fuel conditions the Austrian Government has just issued a decree expelling from the country all persons who do not claim a legal residence here.

This decree, which becomes effective on September 2$, will affect a large number of Gallicians and many Hungarians remaining in Austria after they were ordered to leave the country some time ago.

Notwithstanding this decree, the Minister of Finance has forbidden aliens to remove money from the banks, and thus thousands of people find themselves expelled within a few days and unable to secure their money. The Polish Government has entered a strong protest.

In the meantime the city itself is living from hand to mouth. It is congested beyond description, there being a large idle population of the actual unemployed and "drifters" who gave up their work in other districts and came to this city.

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still

I at first let it go, but began to get weak and in a run-down condition, so I decided to try som more Cardui, which I did.

This last Cardui which I took made me much better, in fact, cured me. I have no return of this trouble.

I feel it was Cardui that cured me, and I recommended it as a splendid female tonic."

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists.

## RICHMOND THEATRE

"The Spite Bride," a Selznick Picture starring Olive Thomas, comes to the Richmond Theatre today.

It's simply a knockout—the best thing that the screen has seen in many moons. It has snap, dash and zest; a human picture of human people presented in a human way. And Olive Thomas was never better in her life. She is the essence of youth—youth at its finest—with its simplicity, grace, charm and wistfulness.

"The Spite Bride," is a drama of youthful impulse with just enough thrills to make you a little bit creepy—not enough to make your spine run cold—with enough suspense to keep you interested from start to finish—with enough laughs to give that nice warm feeling inside and a few tears which give you a pleasant, happy feeling afterward.

## INGOMAR THEATRE

The attraction at the Ingomar Theatre tonight will be "American Aristicracy," featuring Douglas Fairbanks. It is a regular Fairbank's picture with thrills aplenty.
